### **ROOM EQUIPMENT**

Modular table  
UX laboratory  
Flipchart  
TV monitor  
PC  
Video projector  
Wi-Fi connection

### **TECHNOLOGICAL EQUIPMENT**

Our facility is equipped with 2 independent lines (2 focus group rooms + 2 interpreter rooms) each featuring FHD PTZ SDI cameras, panoramic and wireless handheld microphones, and a dedicated HDMI connection for UX labs. The control room features 6 Blackmagic Video Assist 7" 12G terminals, enabling live recording in MP4 format (up to 1080P) of multitrack files for both original language and simultaneous translation track. Additionally, both rooms can live stream simultaneously to two separate destinations, broadcasting the original language version and the translated version via Social Media channels or customized RTMP, thanks to our 2 fiber optic Internet lines.

### **ADDITIONAL VENUE AMENITIES**

Tailored catering options  
Private car-hire and taxi arrangements  
Audio recording in WAV or MP3 format  
Black and white and color printing in A4 format  
Participant welcome services
